BENAMÔR

LISBOA 1925

Established in Lisbon in 1925, Benamôr was formed from the creations of a mysterious apothecary, who created miraculous ointments in his Campo Grande laboratory.

Here, he concocted his beauty recipes using unique perfumes and traditional, natural, Portuguese ingredients: extracts of lemon and rose, aloe vera and almond oil.

The wonderful Art Deco tubes were met with immediate success, thanks to the chord they struck with the women of Lisbon, and, notably, Queen Dona Amélia, who remained faithful to the brand throughout her life.

Benamôr brings you some of the most cherished Portuguese beauty recipes: Face Cream with a formula that has remained unchanged since 1925, containing rose extract that makes skin look immediately radiant.

More of the company's most popular creations include the Alantoïne hand cream and the Bronzaline.

Benamôr Hotel Line

Our GORDÍSSIMO Beauty recipe, the original fatty cream, is naturally generous! Its ultra-nutritious recipe favours natural ingredients such as shea butter, which deeply hydrates the skin, making it look satiated and healthy from the moment it is applied.

The new exclusive hotel line, which is now available for delivery, was born as a product of Benamôr's heritage, combined with innovation, in the fragrances it creates.

The Gordíssimo line has a characteristic mild scent of vanilla mixed with shea nut gluttonous and sweet, it is made up of 4 40ml tubes of shower gel, body lotion, shampoo and conditioner, as well as a 25g silky soap, which comes in a cardboard box.

It also includes generous 300ml shower gel, shampoo and body lotion dispensers.
